Allowable Subject Matter

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance: the closest art of record does not disclose a process, as called for in claim 1, of which the ligands of the catalyst are different and the bridging group contains two bulky groups. Further, as argued in the response, one having ordinary skill in the art would recognize that "bulky groups" are clearly defined terms in the Organic chemistry and would recognize that applicants can show by examples in the specification ligands with bulky groups perform better than others with non-bulky ones.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thuan D. Dang whose telephone number is 571-272-1445. The examiner can normally be reached on Mon-Thu.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Caldarola can be reached on 571-272-1444. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
